WARNING

This document contains information affecting the national defense of the United States, within the meaning of Title 18, sections 793 and 794, of the U.S. Code, as amended. Its transmission or revelation of its contents to or receipt by an unauthorized person is prohibited by law.

PREFACE

This report is a summary of selected information on transportation, infiltration, and military activity in southeast Asia as identified by NPIC through the cover date. Activity in support of communist forces in Laos, North Vietnam, South Vietnam, and Cambodia is emphasized.

Items are generally numbered and arranged according to location from north to south. Annotated maps of varying scales have been included to assist the reader in locating the item. Selected photographs are included whenever scale and interpretability permit.

Missions, mission dates, frames and NPIC cable and briefing board references are listed after each item, as appropriate.

Kep/Hon Gai Rail Line Under Construction, North Vietnam

A major addition to the North Vietnam railroad network is now under construction between the Kep and Hon Gai areas. From a projected junction with the Ha Noi/Ping-Hsiang rail line, 3.4 nm south of Kep (21-21N 106-16E), the new rail line will extend approximately 60 nm to the easternmost tip of the Ile Aux Buissons (20-57N 107-04E). Approximately 45 percent of the alignment has been ascertained from current intermittent construction.

25X1D

Several short segments of initial clearing are discernible on photography of [REDACTED] (partially depicted on the inset to Figure 7), indicating that construction was apparently begun earlier in the month. Figures 1 through 7 depict representative segments of the current construction.
